THE PERFECT BALANCE. DESIGN MEETS FUNCTION

We use our passion for design and technology to inspire and excite people all over the world. By applying our vast Know-How and almost 150 years of experience, we ensure our products are not just beautiful to look at, but truly make life easier and more comfortable.

Responsibly made from fine and durable materials, Geberit products are a perfect balance of elegant design and outstanding function. They are easy to clean, easy to use and increase comfort.

Design Meets Function is the name given to this fusion of outstanding functionality with aesthetic design for the entire bathroom.

Geberit is a European market leader in the field of sanitary products, providing outstanding added value in sanitary technology and bathroom products.

Geberit is a global ambassador for quality with sales offices in over 50 countries and 29 production sites Worldwide. The headquarters are still based in Rapperswil-Jona, Switzerland, where Caspar Melchior Albert Gebert founded the company in 1874.

Over 12,000 employees are committed to providing customers with innovative, sustainable and durable products of the highest quality. Geberit prides itself on its strong competence for innovation, enabled and supported by the Group's wide-ranging research and development activities. Customers can rest assured that new products meet their needs – not to mention the very highest quality standards.

MULTI AWARD WINNING BATHROOM PRODUCTS
FOR HIGH QUALITY DESIGN AND FUNCTIONALITY

OUR APPROACH

Sustainability has been an integral part of Geberit's corporate strategy since 1990, with the goal of using innovative sanitary products to continuously improve people's quality of life. To achieve this, Geberit develops sanitary products and services while taking economical, ecological and social aspects into account. As the European market leader, Geberit wants to contribute to a more sustainable sanitary industry.

OUR KEY FOCUS

Environmentally friendly, resource-saving, durable products are extremely important at Geberit. The key here is eco-design, with all products developed consistently in line with the eco-design principle since 2007: Seen across the entire product life cycle – from the provision of raw materials to disposal – each product must be better than its predecessor from an ecological perspective, without sacrificing on quality, functionality or durability. Eco-design covers all stages of this life cycle, thus contributing to the circular economy.

Geberit, has received a Platinum seal from EcoVadis in recognition of its best-in-class sustainability management. This is the second consecutive year that Geberit has attained the Platinum rating and cements the company's position as a sustainability leader within the sanitary industry.

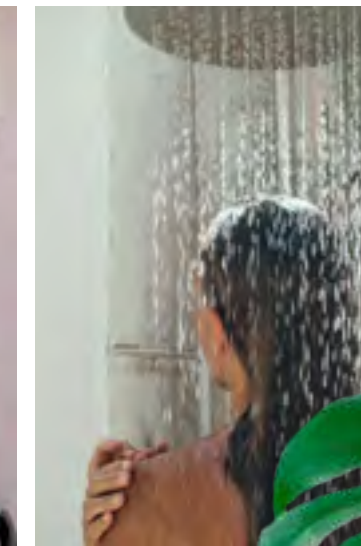

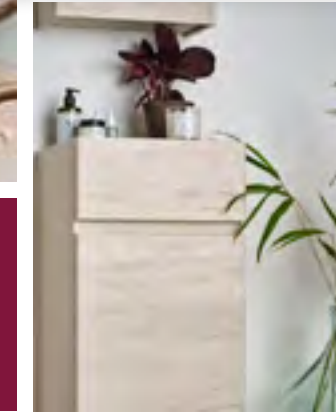

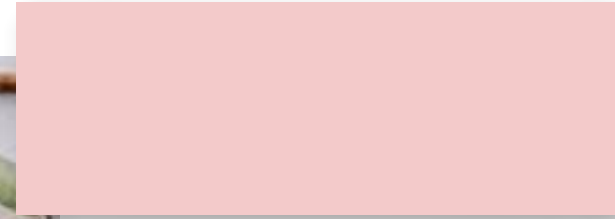

FIND YOUR **STYLE**

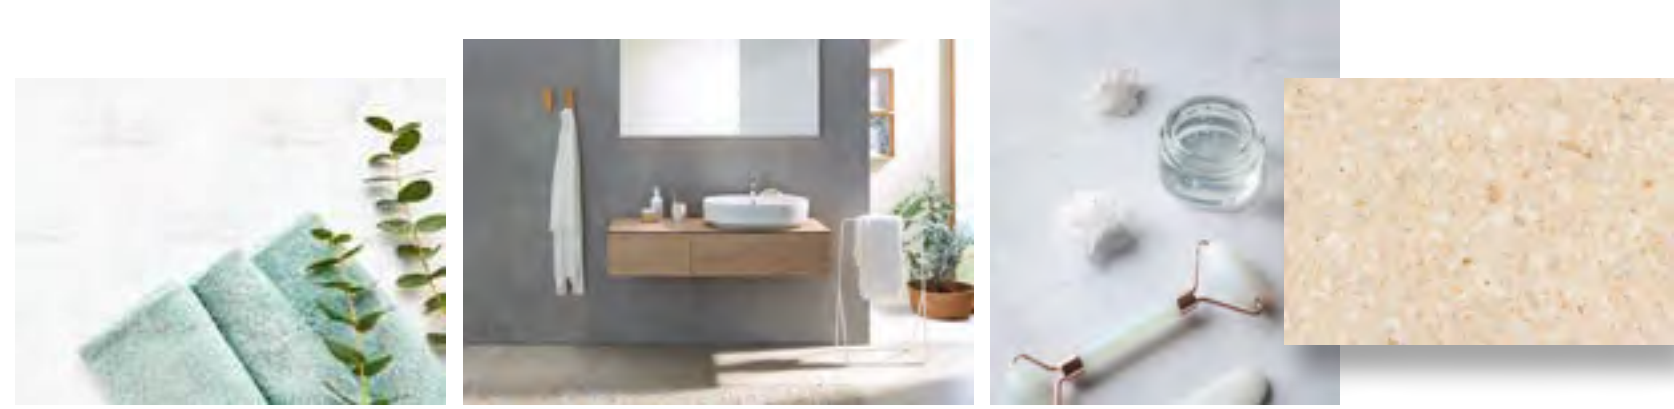

Home improvements are becoming ever popular, as householders look to improve their current dwelling instead of moving. This may include a full home renovation or changes to décor and accessories to give a room a new lease of life. Everyone has their own décor and styling tastes, these may be wacky bold designs or muted neutral tones - whatever your taste, the following pages will hopefully give you inspiration and ideas to create the home of your dreams.

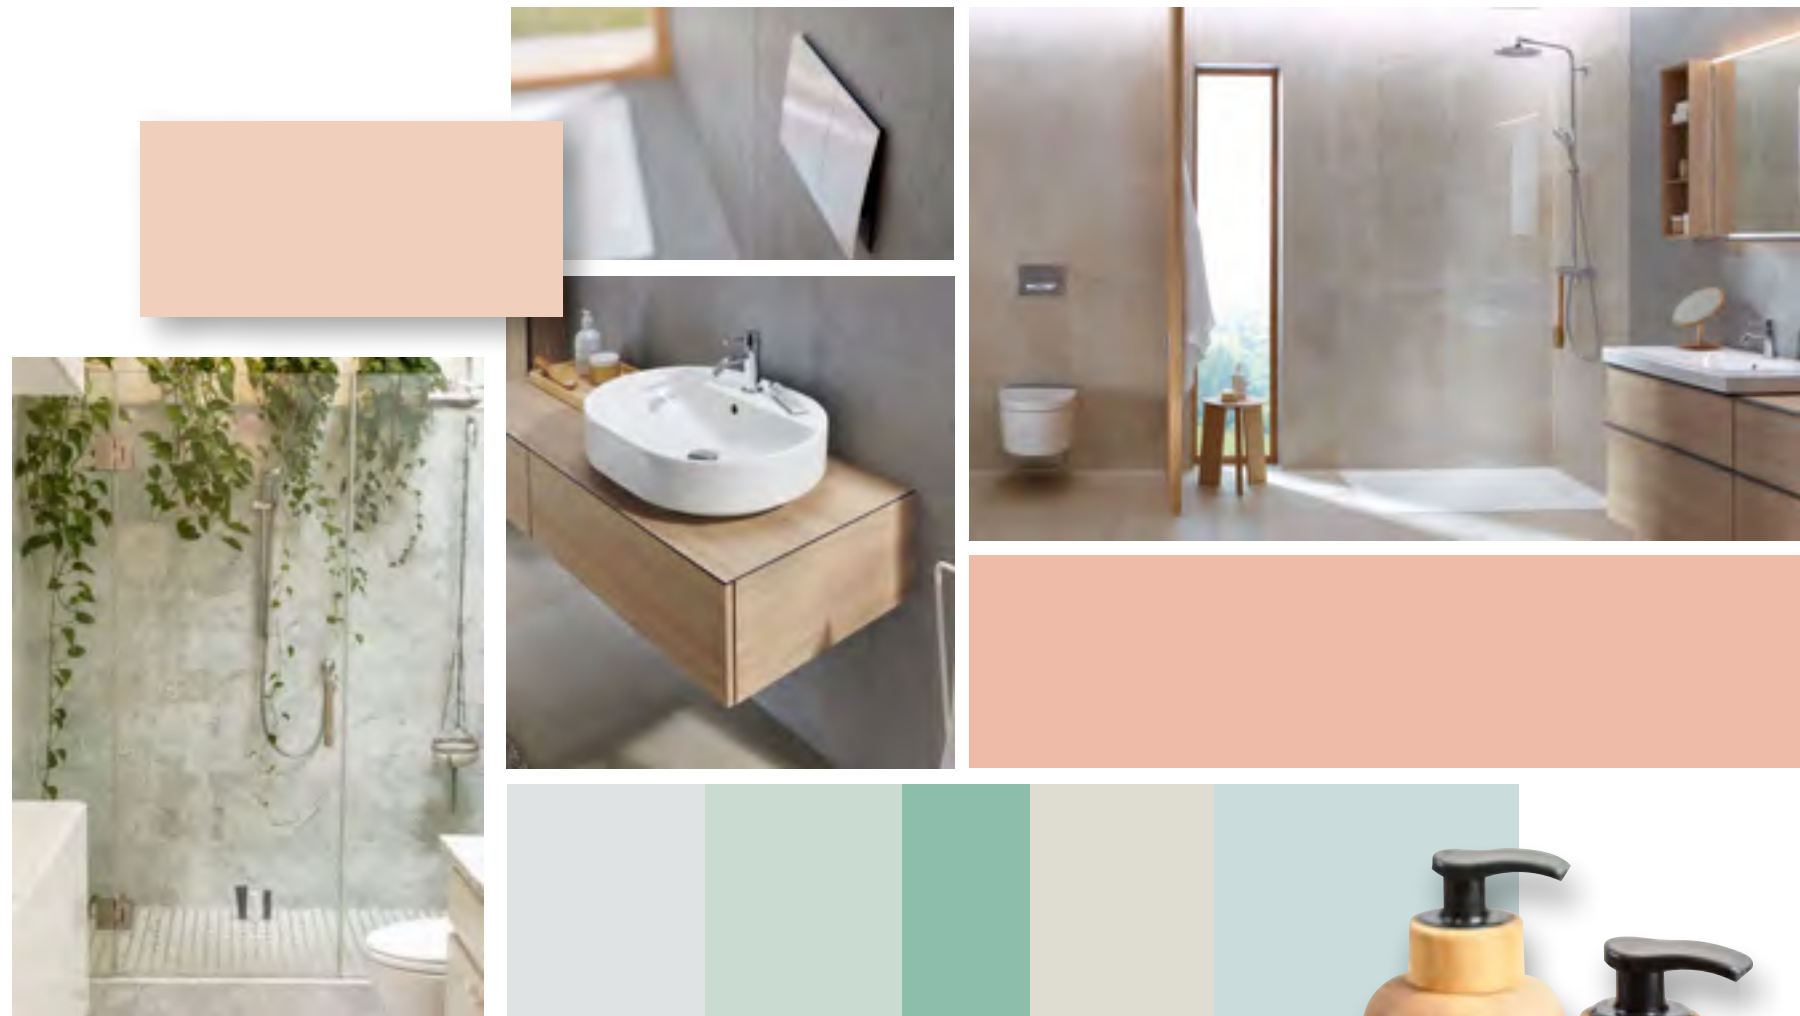

BOTANICAL RETREAT

This maximalist story transforms bathrooms into high end, spa-like retreats that are wrapped in an oasis of greenery and filled with intricate pattern and texture reflecting the natural world. The aroma of rich-scented oils, Himalyan salts and flower petals will fill the room as you prepare for a spiritual bathing ritual. Moorish inspired patterns adorns walls and floors and adds interest to accessories. While marble textures, brushed metallic fixtures and fittings and ornate details add a sense of luxury.

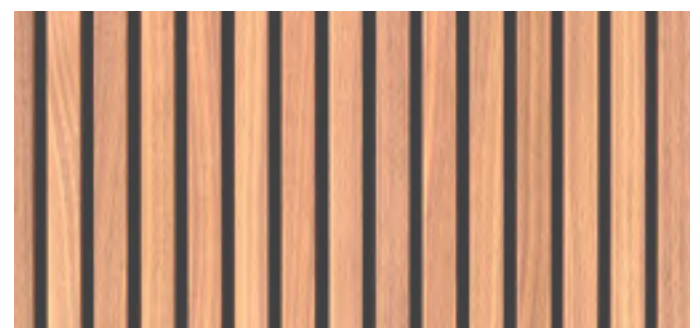

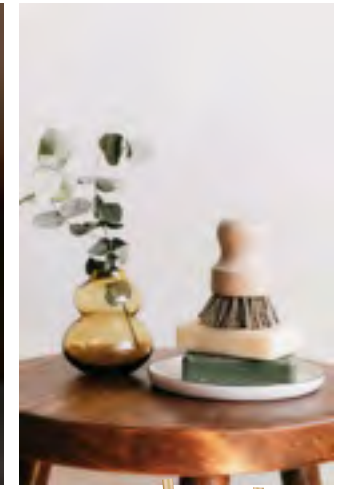

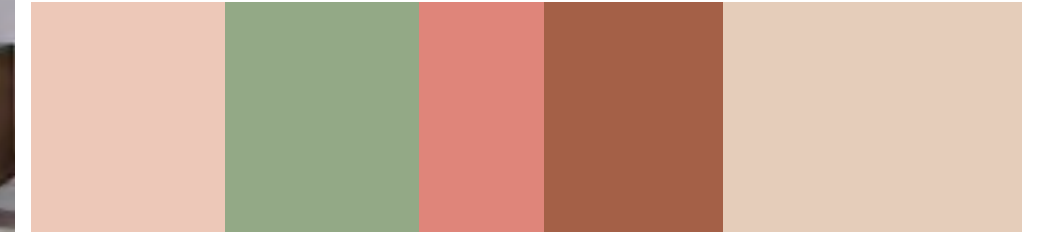

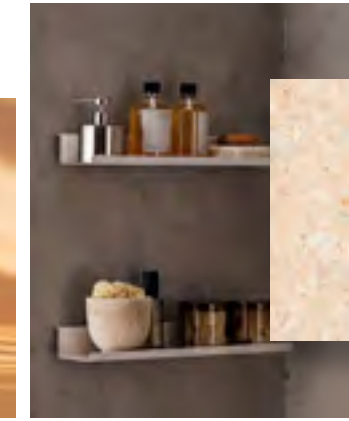

The Nordic trend is driven by the need for self-care and a space within the home which is yours to fully rest and recuperate. Your bathroom will become a haven of calm contemplation, supporting both mental and physical wellbeing. The interiors are washed with cool-green and blue tones with the subtle textures and light wood grains adding tactility and warmth.

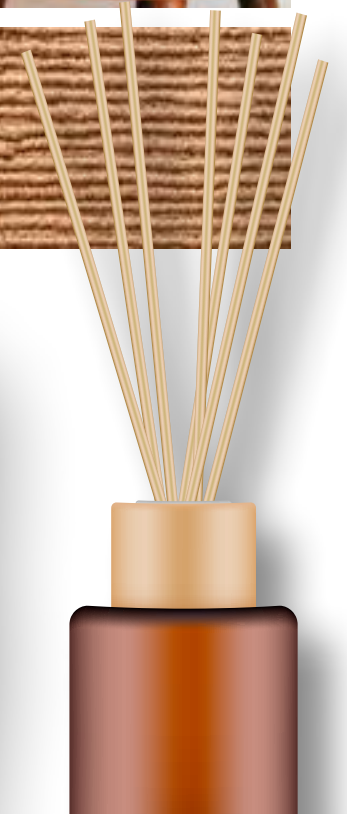

NORDIC CLEANSE

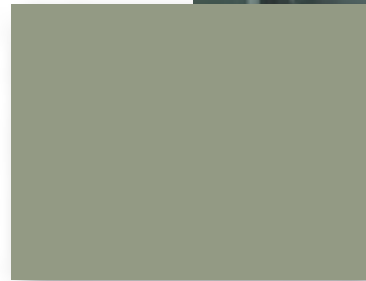

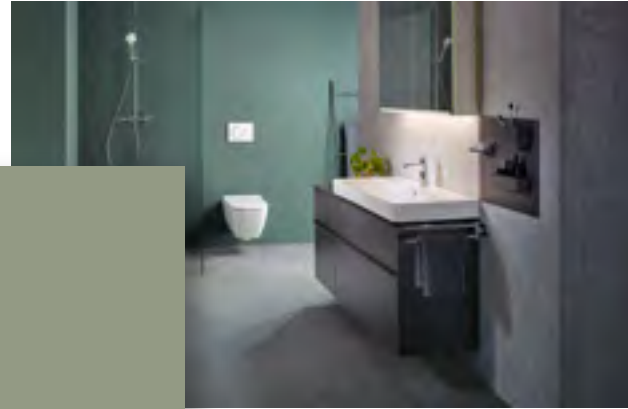

The Reconnect trend encourages a slower pace of life and a deeper connection to the natural world. Your bathroom will radiate the relaxed flair of sun soaked days spent in the Mediterranean. Natural materials such as clay and terracotta take centre stage and are layered with sun baked hues and mid-dark wood tones to bring the feeling of warmth. Handcrafted and woven accessories add tactility, finishing off the perfect nonchalant setting for your relaxed morning routine.

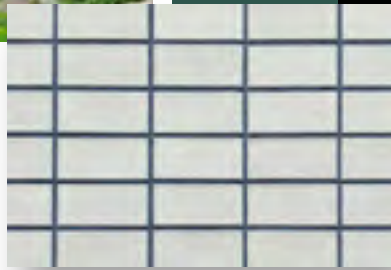

RECONNECT

URBAN SANCTUARY

URBAN SANCTUARY

The Urban Sanctuary trend is driven by the revival of mid-century modern style and urbanisation. Your bathroom is functional, minimalistic and celebrates the use of industrial materials, powder coated steel and concrete composites. Terrazzo adds a retro nostalgic feel and the mix of surfaces imbues a sense of durability and permanence.

GEBERIT ONE

WHEN DESIGN AND FUNCTION BECOME ONE

Geberit ONE offers a wide range of options for designing bathrooms that impress both aesthetically and functionally. Washbasins, bathroom furniture and mirror cabinets in various designs are perfectly coordinated with one another and can be combined to suit your individual requirements.

DESIGN

CLEANLINESS

USABILITY

COMFORT

ACCESSIBILITY

Geberit ONE offers a wide range of options for designing bathrooms that impress both aesthetically and functionally. Washbasins, bathroom furniture and mirror cabinets in various designs are perfectly coordinated with one another and can be combined to suit your individual requirements.

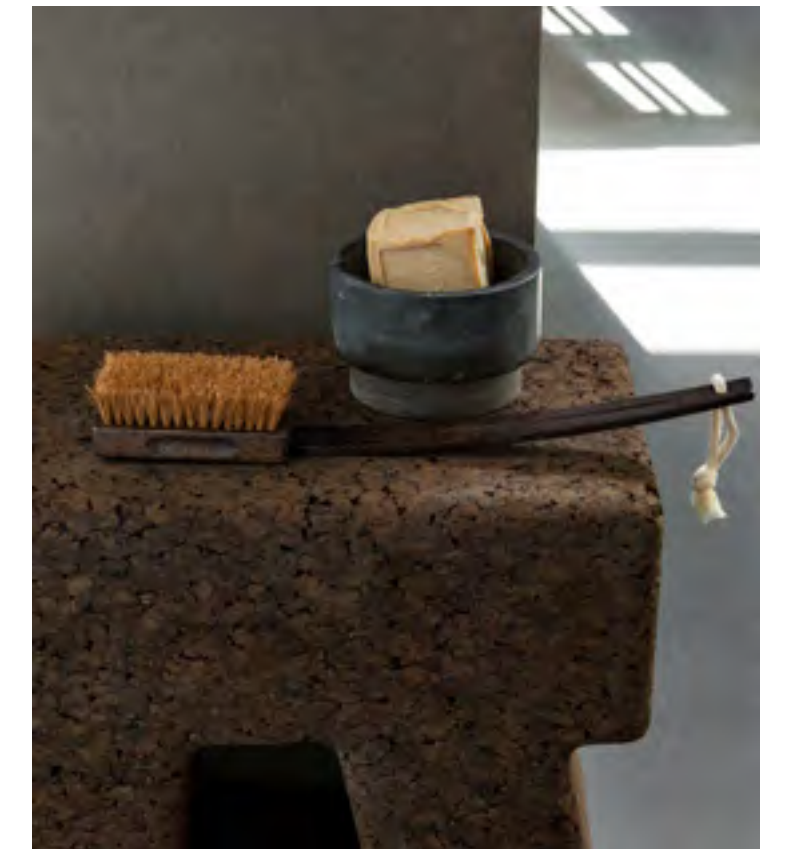

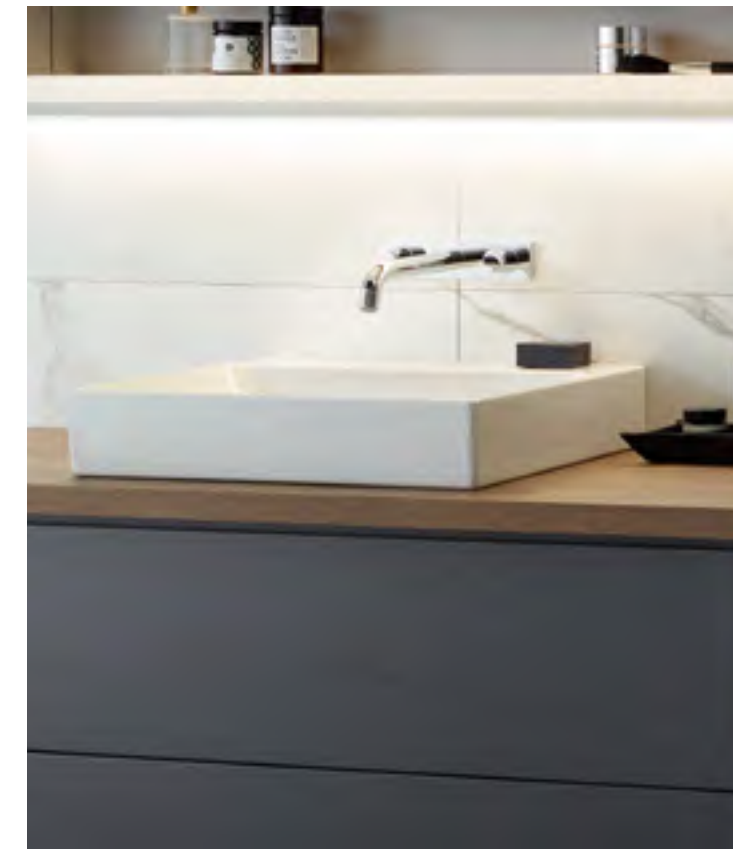

Design the bathroom that fits perfectly with your needs, from the washbasin, washbasin cabinets and low cabinets through to the washtops. Plan your storage space as generously as you want, make the most of your floor plan and create the look you like with perfectly coordinated components combined in a variety of ways.

Hidden overflow

Keractec® glaze

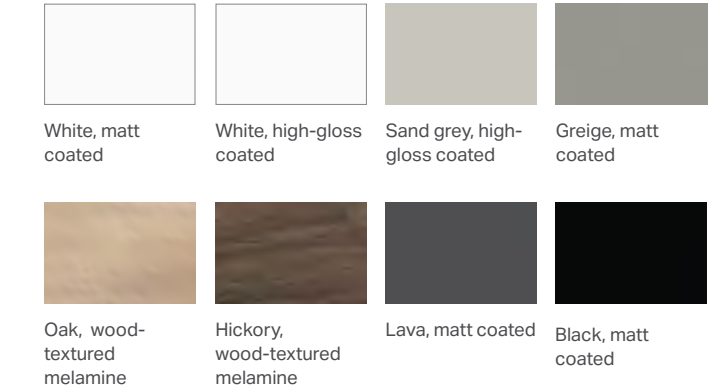

QUALITY IN MANY FACETS CONTEMPORARY AND HIGHLY FUNCTIONAL DESIGN

The expanded Geberit ONE bathroom furniture range offers a variety of design possibilities. The clever push-to-open drawer mechanism and soft closing ensures quiet running and gentle opening and closing. The lay-on washbasins can not only be positioned centrally on the washtops, but also asymmetrically. All materials and surfaces are moisture resistant.

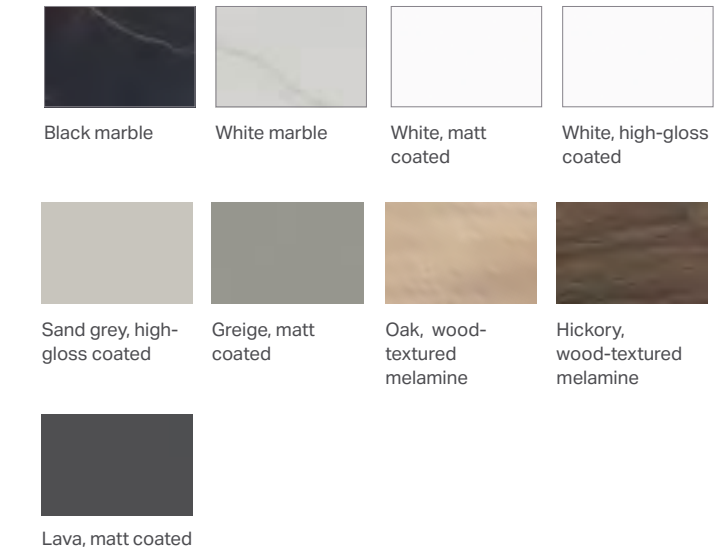

FURNITURE COLOURS

BODY/FRONT

WASHTOPS

-  Moisture resistant
-  Soft closing doors and drawers
-  Keractec® glaze

Geberit ONE shows just how functional and elegant space saving products can be. Washbasins and bathroom furniture with a projection of just 40cm have been designed so that the drain technology can be installed behind the wall. This creates space in front of the wall and more space within the drawer.

FURNITURE COLOURS

BODY / FRONT

White, high-gloss coated

Walnut real wood veneer

The Geberit ONE wall-mounted taps offer freedom of movement, creating extra space on the washbasin surface whilst adding a simple and elegant brassware solution to your bathroom. Choose from a rounded or geometric design, with an option of two finishes, Gloss Chrome and Matt Black, allowing you to finish a bathroom space perfectly suited to your desires.

TAP FINISHES

Gloss Chrome

Matt Black

The Geberit ONE mirror cabinet is impressive thanks to its aesthetic and practical advantages and its barely visible projection, it disappears almost completely behind the wall and offers more freedom of movement at the washbasin, giving your bathroom a spacious feel.

EVERYTHING AT YOUR FINGERTIPS IN THE MIRROR CABINET

Geberit ONE mirror cabinets are available in a wide range of models for designing the bathroom completely according to your needs and personal tastes. The storage space is behind the wall, keeping it clear and tidy, and allowing you to move freely around the washbasin.

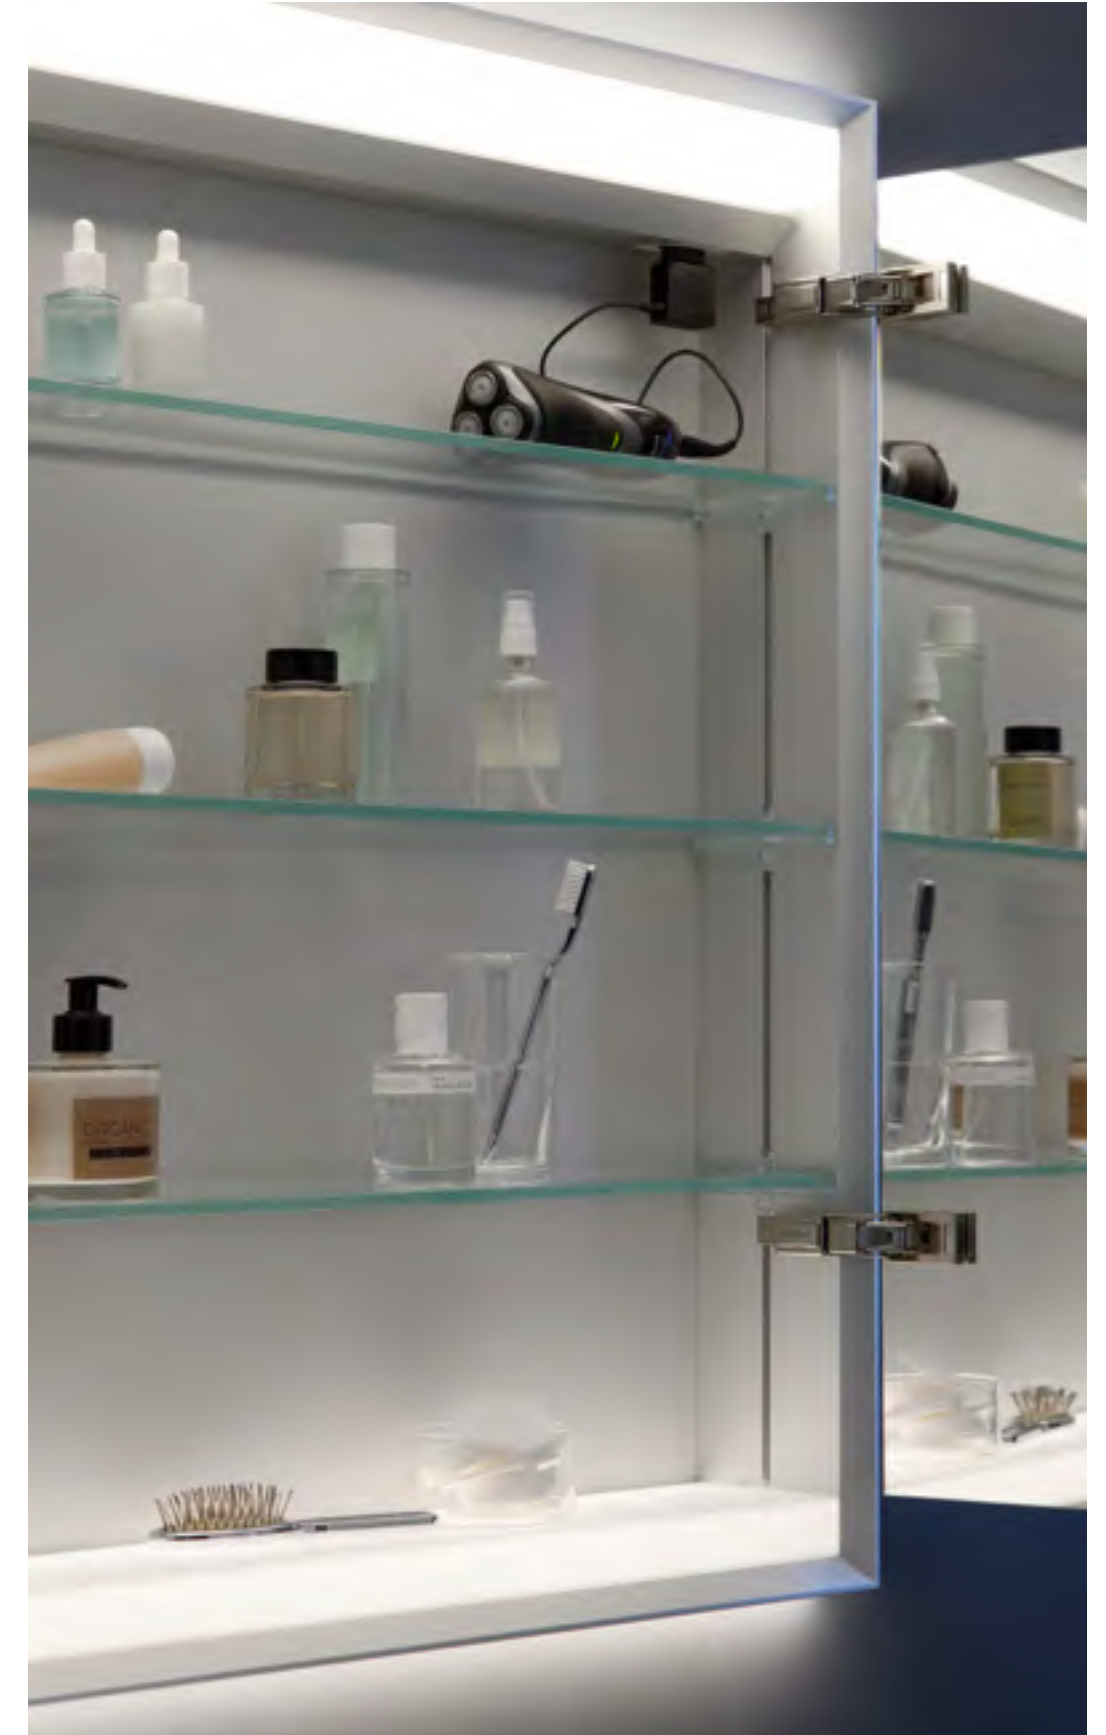

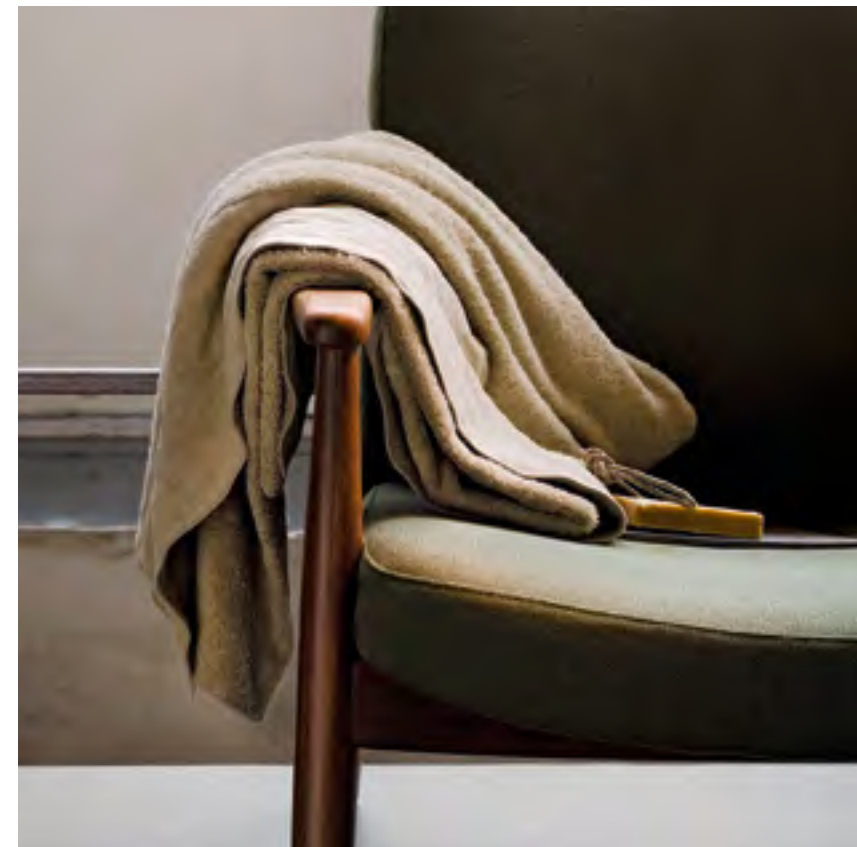

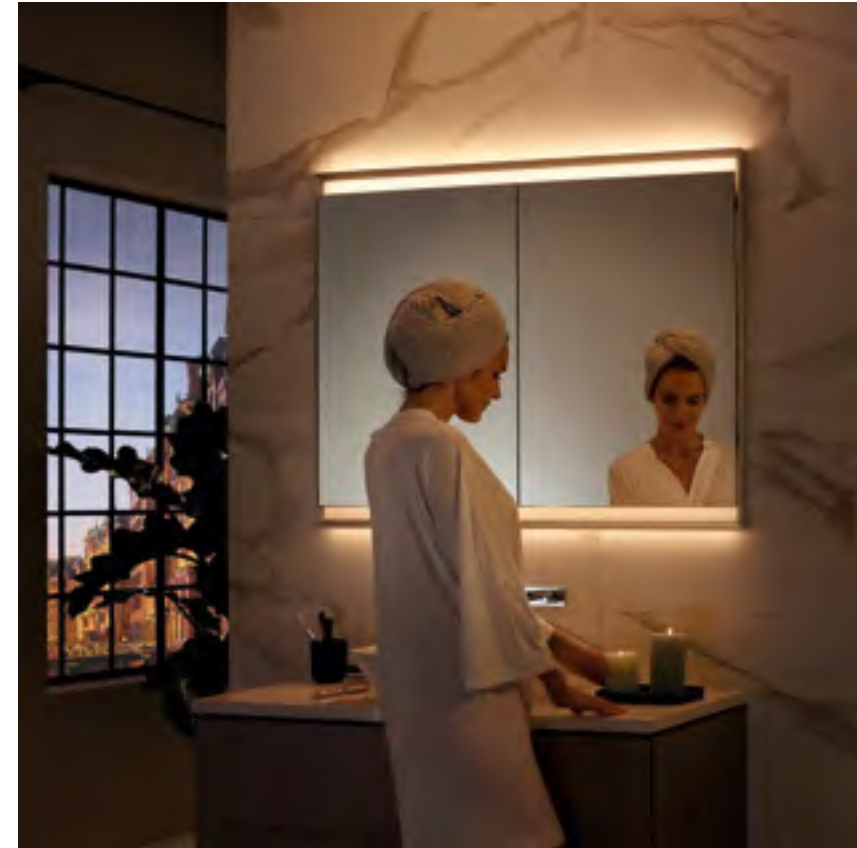

The mirror cabinets are available in two versions, either with mirrored doors or with short doors which have an open, lit niche at the bottom, meaning regularly used items remain within easy reach even when the mirror doors are closed.

RAYS OF LIGHT

Geberit ONE mirror cabinets with ComfortLight will give you the perfect lighting at any time of the day;

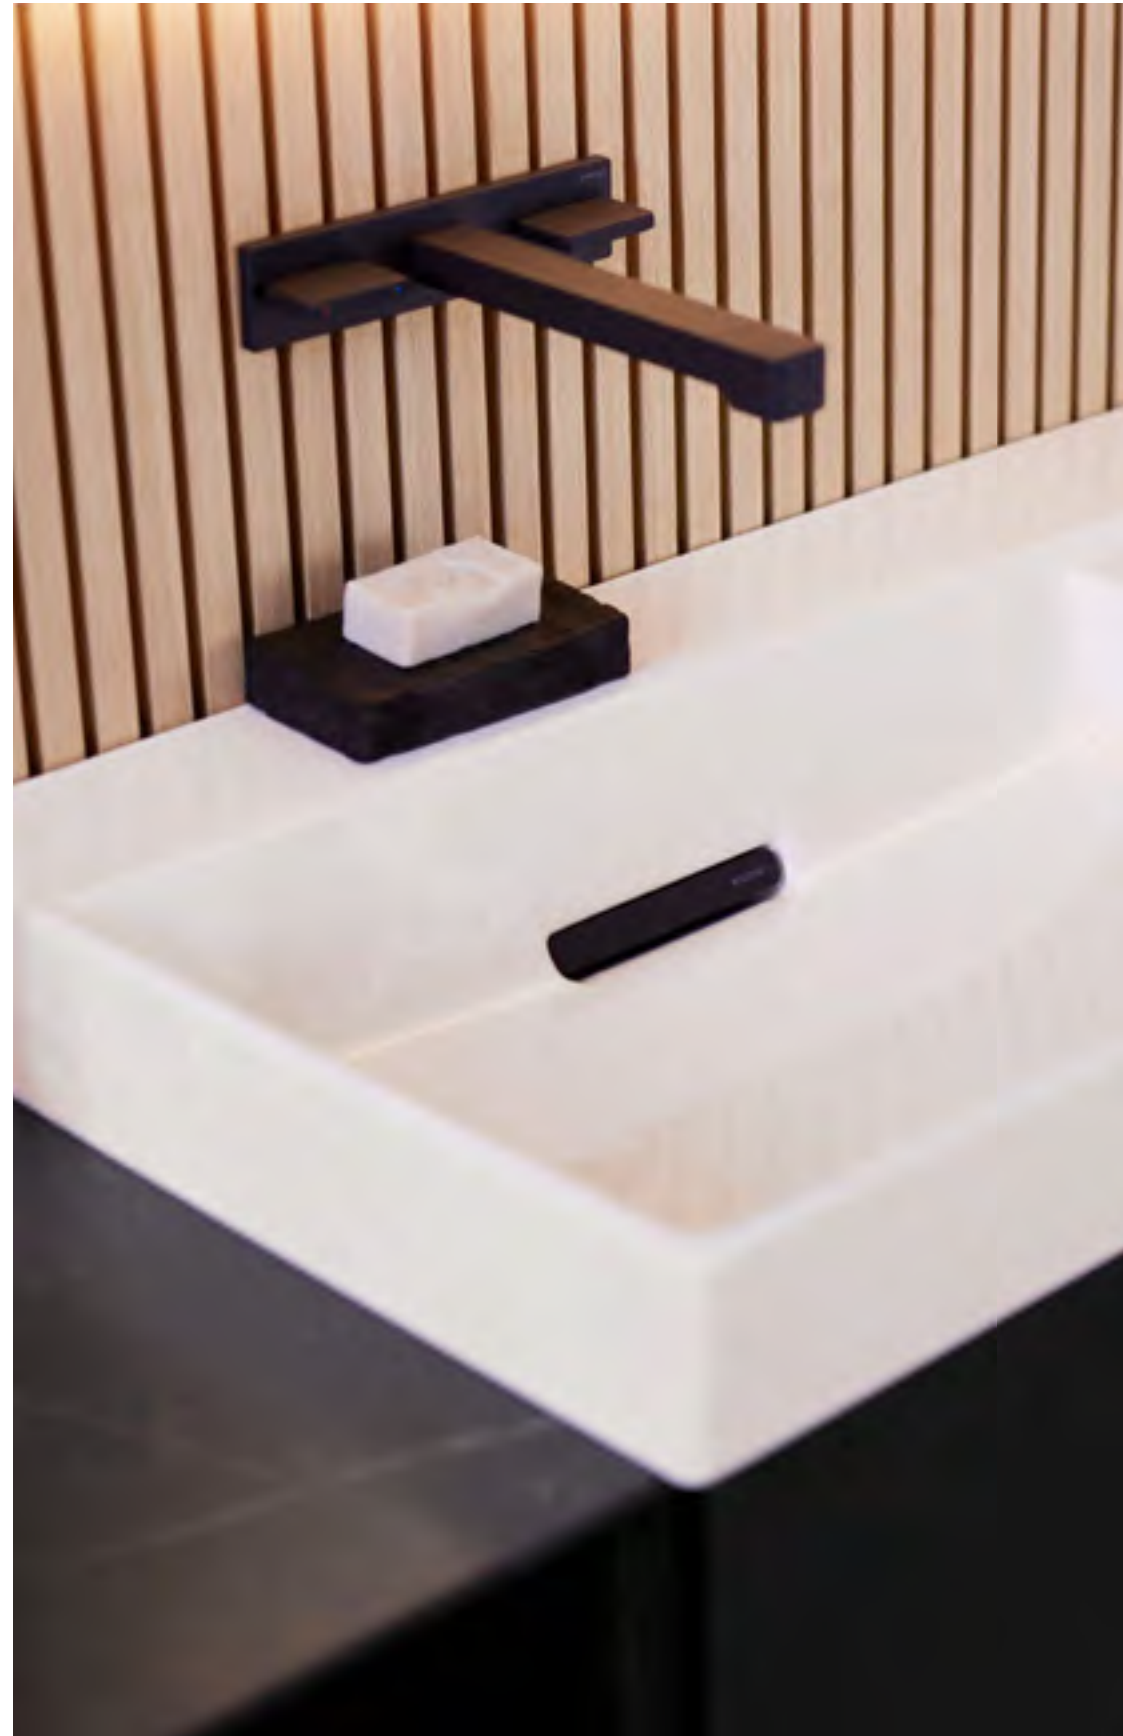

- **Standard light** - Bright and refreshing
- **Work light** - Fresh and clear
- **Candlelight** - Soft and flattering
- **Orientation light** - Discreet and calming

The simple operation via touch, switch or app makes it easy to find the ideal lighting to suit you.

The innovative waste has been tailored to the design of the washbasins and is cleverly positioned at the back edge of the bowl to create more space in the drawers of the washbasin cabinet.

A magnetic attachment holds the cover exactly in position which can be removed with ease in order to clean the attached comb insert. The hidden overflow also allows the washbasin to be filled without risk of the water overflowing. Available in Gloss Chrome, Brushed Chrome, White Alpine and Matt Black.

The Geberit ONE washbasins with a classic waste have a ceramic cover with an integrated comb insert which can be removed with ease to clean. Also, thanks to space-saving technology, additional room is created in the upper drawer of the washbasin cabinet.

The wall-hung Geberit ONE toilet features an asymmetrical, completely rimless inner and TurboFlush technology which is not only more effective than a normal flush, but quieter too. The toilet seat and lid can also be easily removed with ease to clean.

Keratect® glaze

Geberit is able to meet many different demands when it comes to the design of floor-even showers. Discover innovative solutions that are perfectly tailored to Geberit ONE. The seamless integrated niche storage box saves space and keeps toiletries within easy reach for ease of use.

XENO²

Geberit Xeno² is a designer series offering you complete minimalism in your bathroom space. The internal smooth shape coupled with the sharp outer edges make this a real stand out design.

The full series has been carefully designed to include co-ordinating washbasins, furniture, mirrors, toilets and a bidet, all of which will give your bathroom a contemporary edge.

DESIGN

CLEANLINESS

COMFORT

The unique inner shape of the washbasin is designed to reflect the shape created by the flow of water. With a choice of a full washbasin, or with a handy shelf space, and with a range of sizes, you can design the bathroom of your choice.

-  Hidden overflow
-  Keratect® glaze

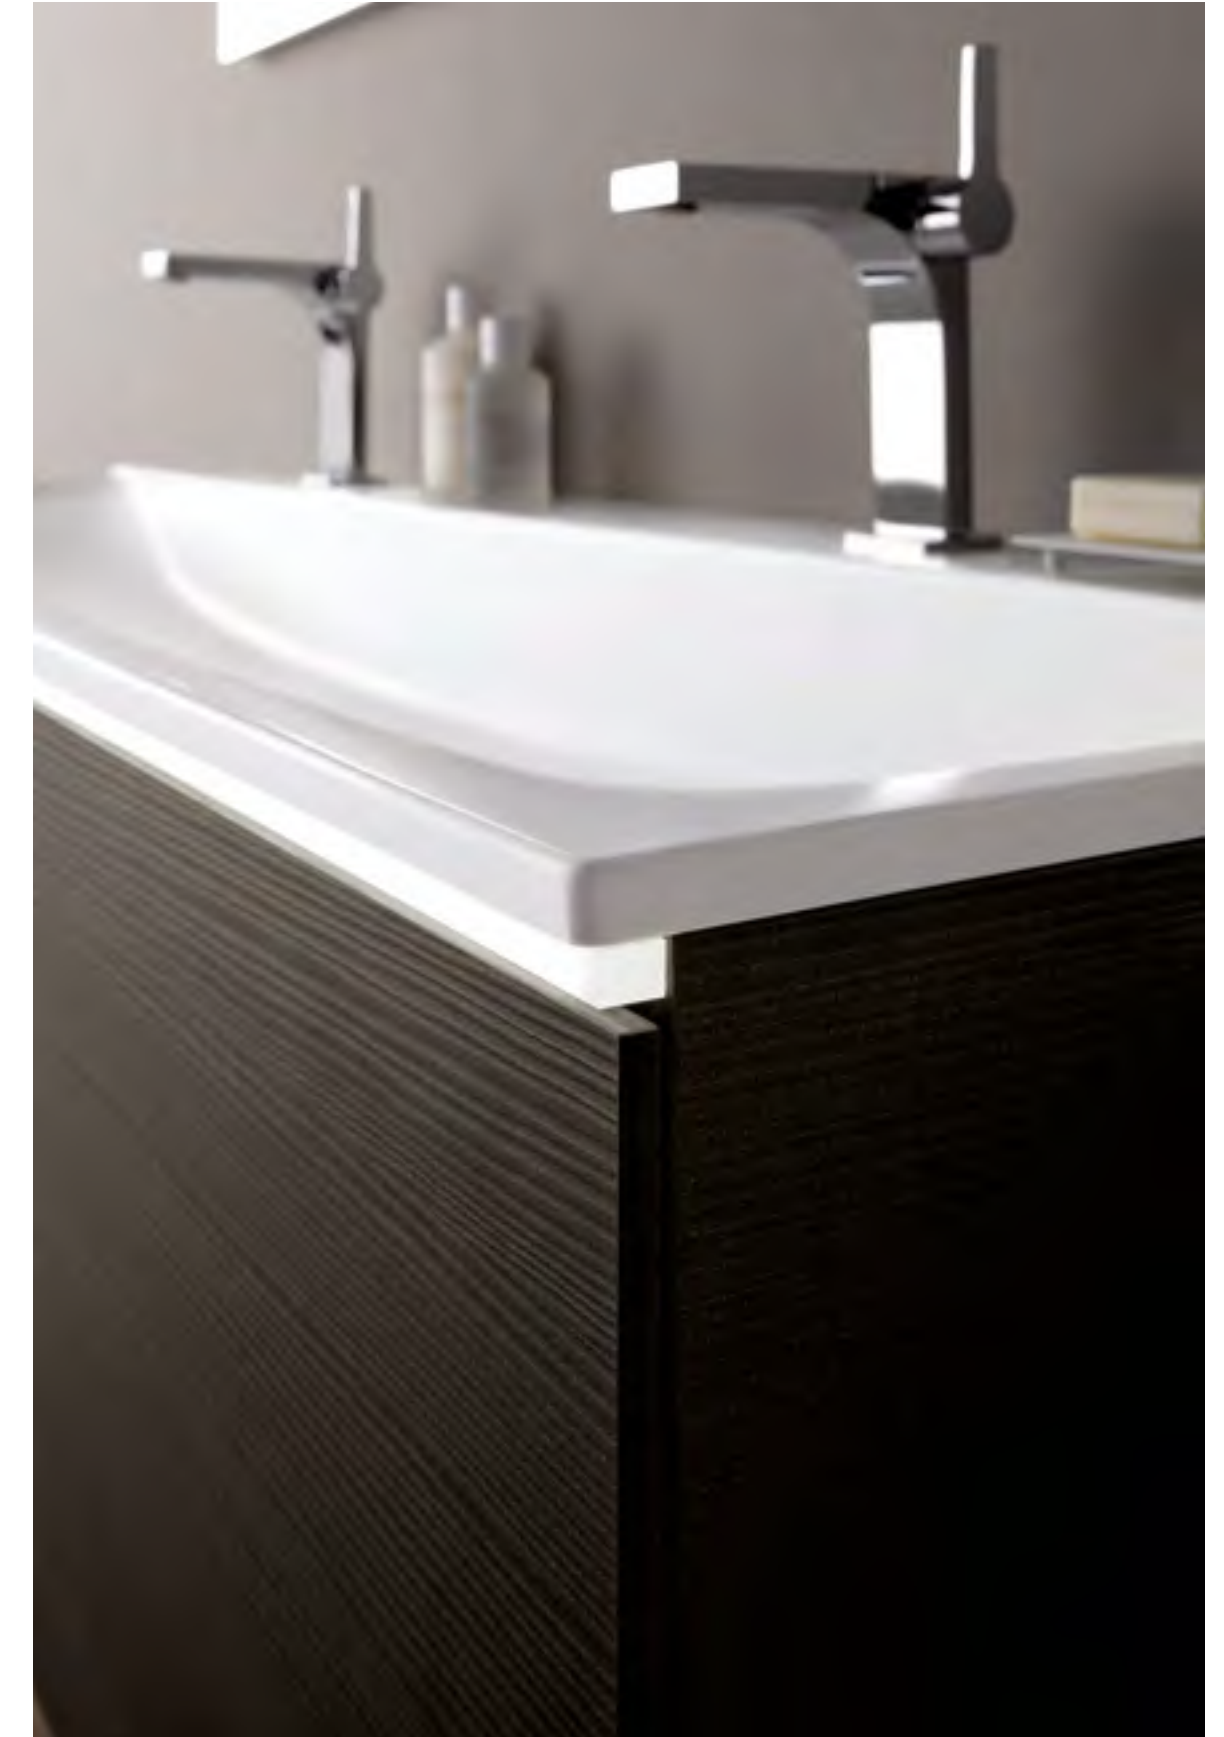

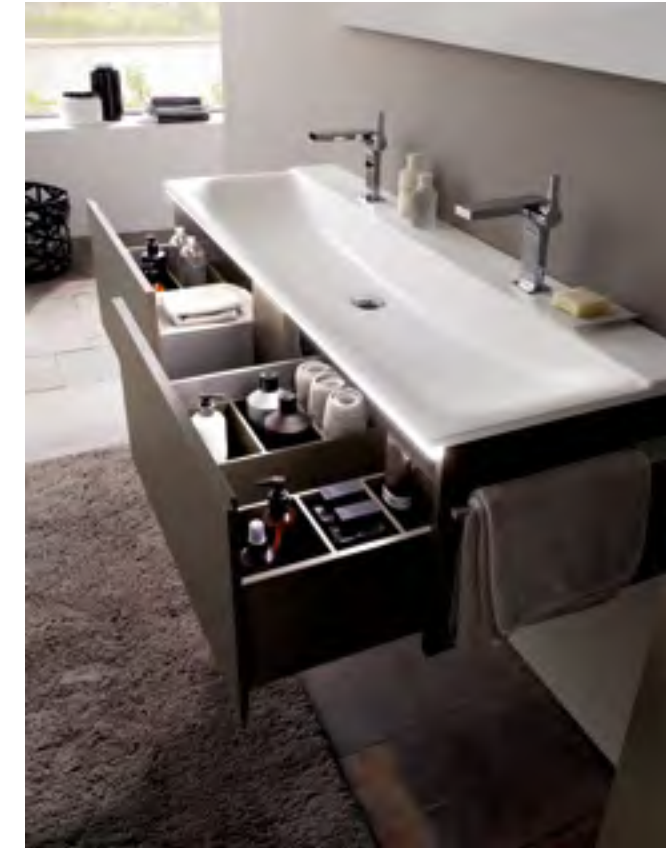

Geberit Xeno² slim rim washbasins are made of the solid surface material Varicor®. Together with the matching bathroom furniture, they are a unique specification which features washbasin areas that are both spacious and lightweight in appearance.

Hidden overflow

Solid surface material

Geberit Xeno² bathroom furniture perfectly complements the ceramic range, creating a minimalist modern bathroom. Washbasin cabinets are soft close, push to open for ease of use and have a smart clean finish. The furniture has generous storage space, with practical features such as an internal mirror, anti-slip mats and integrated LED lighting. Glass covers finish off the top of the washbasin and side cabinets to protect the surface, and they perfectly match the inner shelves of the freestanding cabinets.

Matching mirrors that can be activated by a sensor switch or with the use of a dimming function complete the look, and the anti-mist heating function ensures you'll have a clear view even in hot steamy bathrooms.

ACANTO

The versatility of the Acanto series means you can mix and match your products to create a bathroom that suits your own individual style and taste.

DESIGN

CLEANLINESS

USABILITY

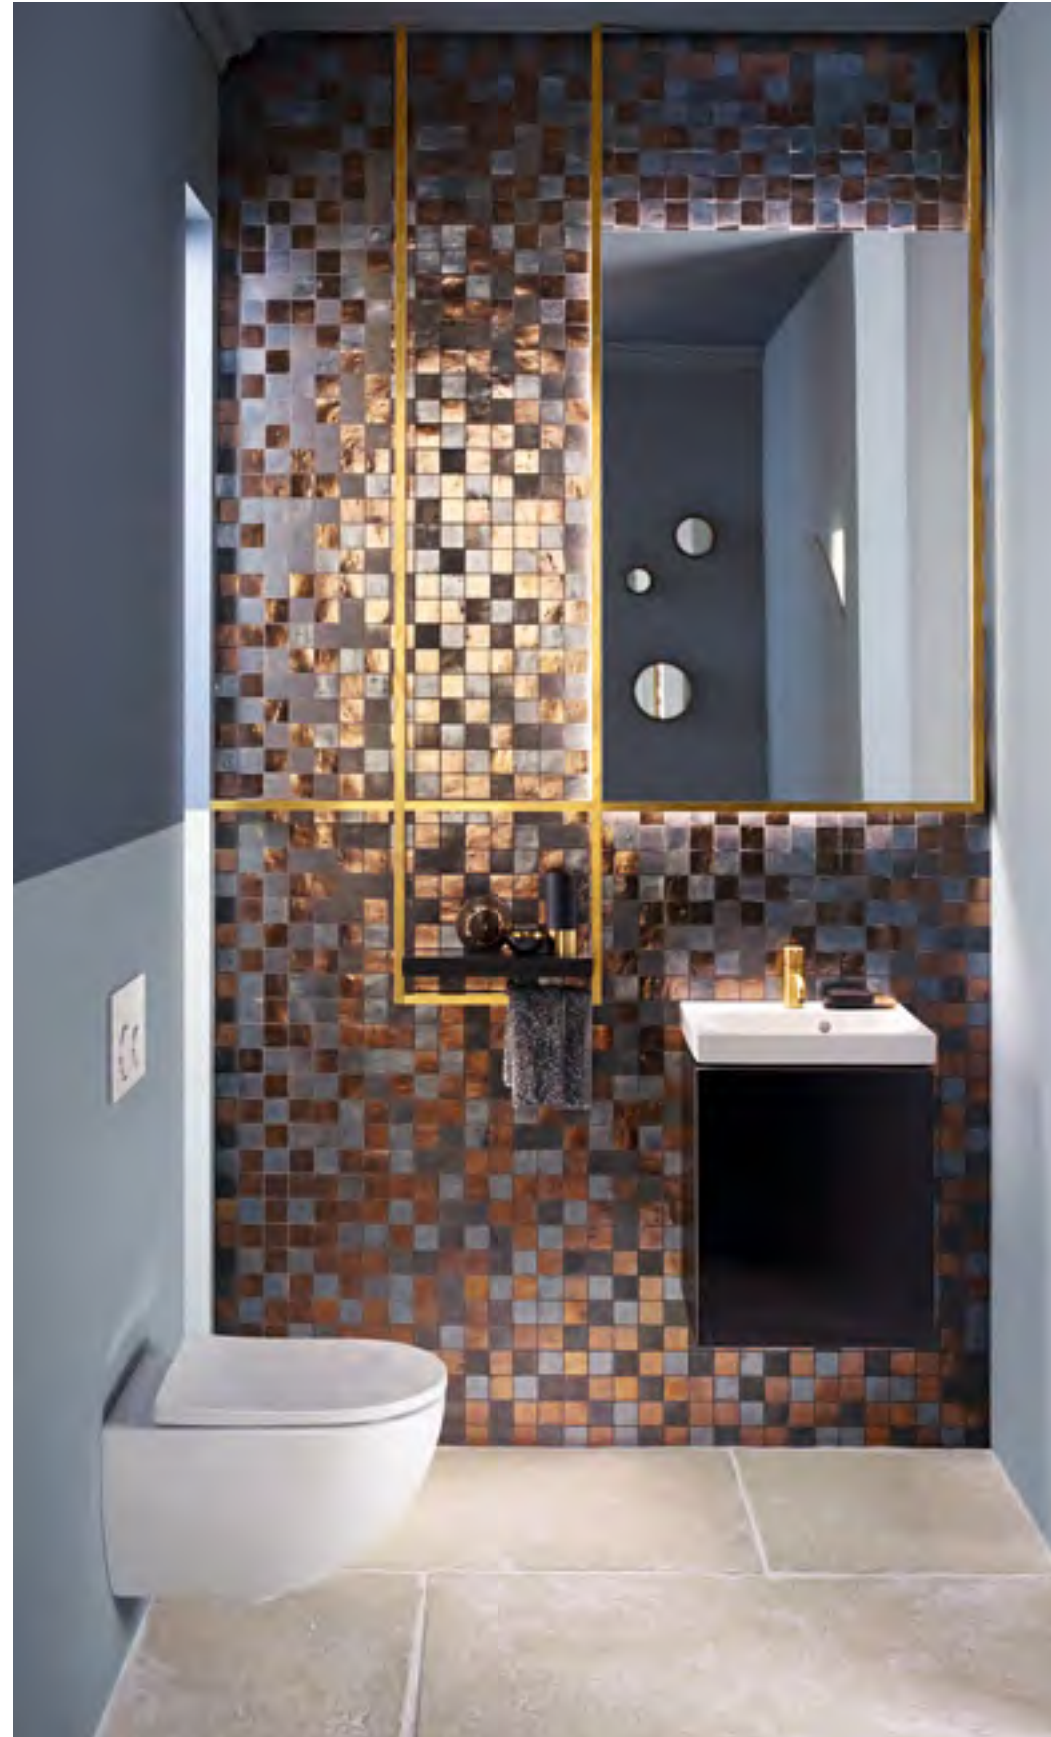

The washbasins from the Geberit Acanto bathroom series have smooth shaped inner contours for a timeless look. They are available in a range of sizes and with the option of a standard or slim line rim, available with or without shelf surface.

The short projection basins within the series are the ideal choice for an ensuite bathroom or when space may be restricted.

Geberit Acanto bathroom furniture was designed after extensive research revealed consumers want the flexibility to choose bathroom products to suit the demands of their own lifestyle. Whether that be additional drawer space, under washbasin furniture, floor standing units or wall cabinets. The innovative wall cabinet features a built in magnifying mirror and LED lighting, as well a power socket, USB cable and handy storage boxes – all designed for ease of use and convenience.

iCON

The linear design and clear lines of the Geberit iCon series can fit flexibly within your bathroom for a dynamic modern look. Style your bathroom however you choose with this extensive ceramic range.

DESIGN

CLEANLINESS

SPACE-SAVING

Geberit iCon washbasins have been designed with clean, geometric lines along the outer contours, in a variety of thicknesses. The inner washbasin is spacious to give you extra depth, with the option for added toiletry space if you choose the asymmetrical shelf space design.

iCon basins are available in three different styles; standard, light and slim.

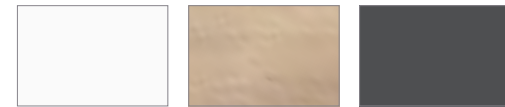

With modular, flexible combinations, illuminated mirrors, side cabinets and tall cabinets can be combined in many ways to create unique and effective solutions to suit your bathroom style and design.

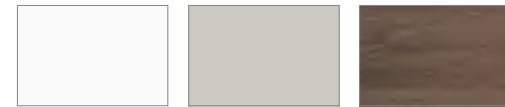

The drawers on the Geberit iCon washbasin, tall cabinets and low cabinets are equipped with a soft-closing mechanism, and furniture also offers you ample and practical storage space.

SMYLE SQUARE

Geberit Smyle Square offers the complete bathroom suite for family bathrooms or ensuites; from washbasins with matching furniture to toilets and bidets, whatever you need to achieve a contemporary bathroom design, you can find here.

DESIGN

CLEANLINESS

SPACE-SAVING

Washbasins are available in a number of different sizes, to accommodate small spaces or family bathrooms.

The Smyle Square furniture range is vast, with washbasin cabinets, low cabinets, medium cabinets or a simple wall shelf, meaning you can mix and match the units, and style your bathroom to suit your space and needs. Integrated handles which match the colour of the units and a modern matt surface furniture come as standard for a clean line finish.

FURNITURE COLOURS

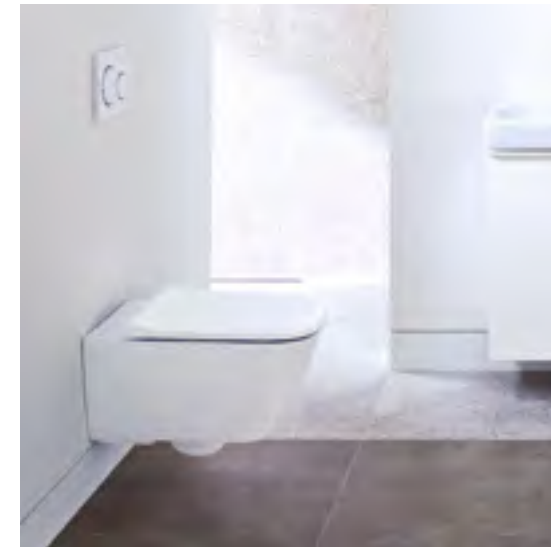

BODY/FRONT

-  Moisture resistant
-  Soft closing drawers
-  Compact option

The ceramic design of the toilets and bidets closely follows the design of the washbasins for a seamless modern bathroom style. With a choice of wall-hung or floor standing toilets with integrated Rimfree® technology, your bathroom becomes easier to clean and maintain.

RENOVA PLAN

The Geberit Renova Plan vanity basins are extremely slim, and with complementary washbasin cabinets and slim tall cabinets within the range, you can gain additional storage space for your toiletries and cleaning products.

DESIGN

CLEANLINESS

The single slim washbasins are available in a range of sizes, all with complementary under-basin furniture. A generous double washbasin is also available in the range to give your bathroom a luxurious finish.

Storage space will always come in useful in your bathroom, so with a choice of under-basin units, wall units and floor standing cabinets you have various options to suit your space.

All furniture units have integrated handles for a clean, modern finish, and the under-basin units feature concealed inner drawers for your smaller bathroom items.

PIAVE AND BRENTA

The Piave and Brenta touchless Geberit tap systems take optimum advantage of the benefits of the installation elements. The only things to be seen in front of the wall are the drain and the infrared sensor. All of the controls are completely separate and are housed in a function box in the installation element, with the necessary connections already pre-installed.

CLEVER SEPARATION OF TAP AND ELECTRONICS

The lean and elegant appearance of the Piave and Brenta touchless Geberit washbasin taps is made possible by separating the electronics from the tap. The control is concealed in the installation element for the washbasin, which has already been pre-equipped for all connections.

SOPHISTICATED AND VANDALISM-PROTECTED DESIGN

The design of the new taps is also suitable for sophisticatedly furnished semi-public and public areas. Given that the Geberit wall-mounted taps are solidly anchored in the Geberit installation element and that sensitive components are in concealed storage, they offer only limited opportunity for vandalism.

TAP FINISHES

DESIGN CLEANLINESS MORE SPACE FLEXIBILITY SIMPLE CLEANING

SOANA

A comfortable bath is often an important consideration when designing the bathroom. Geberit Soana adds a touch of indulgence in every bathroom, regardless of the floor plan.

-  Warm temperature of the surface
-  Durable, long-lasting material
-  Easy to repair if scratched
-  Acoustic and thermal insulation
-  Colour match with ceramics
-  Easy to clean
-  Low product weight

OPTION MIRRORS & MIRROR CABINETS

Illuminated mirrors and mirror cabinets are a real focal point in the bathroom. The Option series will provide the perfect ambient, warm lighting to your bathroom.

The Option Plus mirror lighting can be dimmed with a sensor and an anti-mist function can be activated when required.

Mirror cabinets include a built in magnifying mirror as well as an interior power outlet with USB connection for recharging devices.

Now available in a variety of designs and sizes.

SHOWER SOLUTIONS

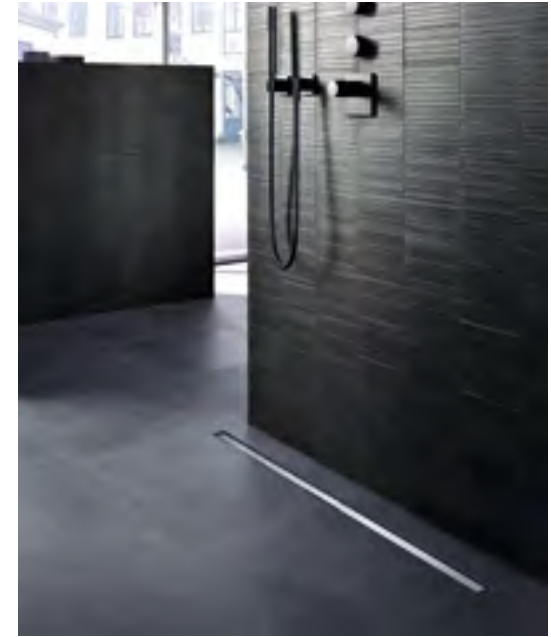

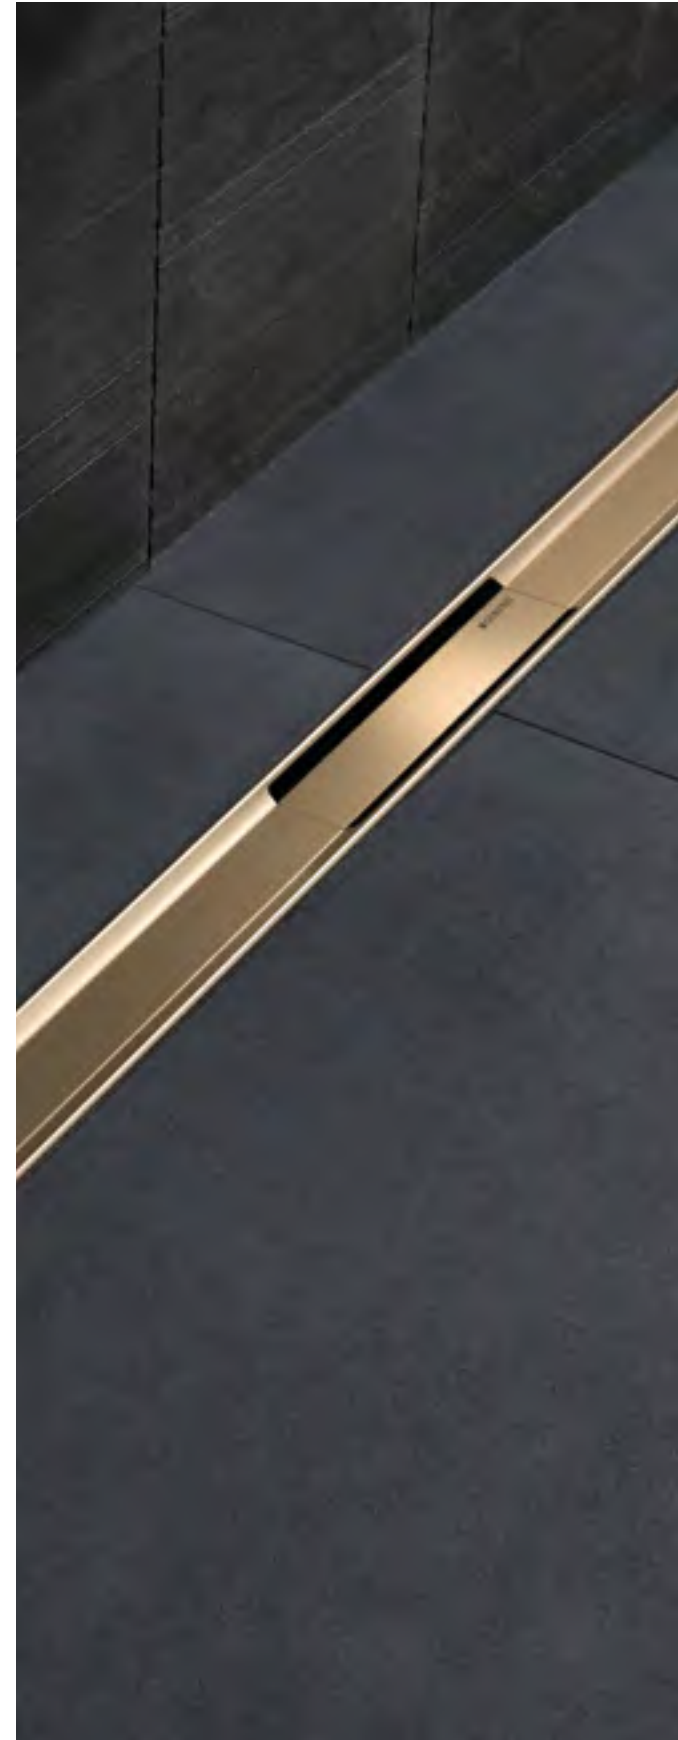

The Geberit Setaplano shower surface feels silky smooth and warm to the touch

The high quality solid surface material is easy to maintain, as any small defects and scratches can be easily buffed out.

The solid surface and the edgeless inlet are both easy to clean as no dirt can accumulate in the inlet area. For added hygiene the comb insert can also be removed and cleaned effortlessly.

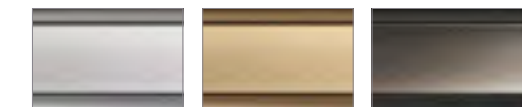

Geberit CleanLine is a revolution in shower drainage. Water drains away through elegant stainless steel collector profiles, meaning there are no hidden areas for dirt to accumulate which will prevent unpleasant odours. A simple wipe over the profile keeps everything clean and hygienic.

CleanLine available in a variety of finishes

The Geberit wall drain means the drainage of your floor even shower is behind the wall rather than on the floor. Not only does this give you a minimalistic look, but it also makes it easier for your plumber to install a floor even shower and underfloor heating without interruption. All that remains visible is a small cover on the wall that can be easily removed for cleaning. The cover is available in various surface finishes and can also be tiled to match the design of the wall, giving your bathroom a seamless finish.

GEBERIT AQUACLEAN

Water is indispensable for daily personal hygiene and wellbeing as it ensures you are cleaned gently and thoroughly.

The Geberit AquaClean range of Mera, Sela and Tuma shower toilets offer thorough cleanliness, wellbeing and gives you that confident feeling of freshness all day long, simply with the touch of a button.

The Geberit AquaClean shower toilets not only clean you with the adjustable arm spray but will give you a gentle dry too. Additional features, to name but a few, include odour extraction, user detection and a touchless automatic toilet lid – ask your local retailer for a demonstration and to find the model that suits your needs.

FLUSH PLATES

Design and functionality work in perfect harmony, with attractive concealed frames and beautiful flush plates suitable for your home.

Geberit Sigma, Omega and Kappa flush plates are the finishing touch for your bathroom. Combining visual elegance, beautiful finishes and innovative technology, they can be a reflection of your own individual style. All Geberit Duofix flush plates work in perfect unison with the Geberit Duofix frame hidden beautifully behind the wall to give your bathroom a sleek finish.

Discover the full range here

MONOLITH

Geberit Monolith sanitary modules give you the opportunity to fit a wall-hung toilet with state-of-the-art flushing technology for toilets. Your flushing is triggered by gently pressing the sensor buttons and a discreet orientation light that you can configure in seven different colours according to your taste and mood also shows the way to the toilet at night. An integrated odour extraction unit absorbs odours directly in the toilets ceramic so that your bathroom stays fresh at all times.

FUNCTIONS FOR GREATER COMFORT

The premium sanitary module Geberit Monolith Plus offers state-of-the-art flush technology for toilets. Flush actuation is triggered by gently pressing the sensor buttons. A discreet orientation light that you can configure in seven different colours according to your taste and mood also shows the way to the toilet at night. An integrated odour extraction unit absorbs odours directly in the toilets ceramic appliance so that nothing can diminish the freshness of your bathroom.

GREATER DESIGN FLEXIBILITY

The front cover made of safety glass is available in the colours white, black, lava and sand grey. The front cover is also available in a concrete or slate look stoneware finish.

The side cladding is beautifully matched to the desired front finish with an anodised colourless aluminium cladding complimenting the white, sand grey and concrete look and cladding in black chrome to harmonise the lava, black and slate look finish variants.

INNOVATIVE FEATURES

WALL-HUNG SOLUTIONS

VERY STRONG
Strength tested to bear a weight of up to 63 stone.

DURABLE
Installed 60 million times over the past 50 years,

HYGIENE: SIMPLE CLEANING
No exposed pipework for dirt and bacteria to hide.

TESTED IMPERMEABILITY
Individually tested to guarantee water tightness.

SIMPLE MAINTENANCE
Remove the flush plate for access to all important parts.

ACOUSTIC SOLUTIONS
Acoustic solutions with the Duofix frame mean it's all quiet behind the scenes.

KERATECT® GLAZE

KeraTect® Glaze - The Geberit KeraTect® special glazing ensures many years of protection for ceramic surfaces. KeraTect® is baked on as a special glaze and has a virtually non-porous and extremely smooth surface that can be kept clean easily and efficiently.

The properties of KeraTect®:

- Virtually non-porous and extremely smooth
- Dirt-repellent, hygienic and clean
- Very easy to clean and look after
- Durable and scratchproof

TURBO FLUSH

The innovative TurboFlush technology is based on a flow-optimised, rimless ceramic pan developed by Geberit, which enables extremely quiet and through flushing. And since the TurboFlush technology rinses the toilet cleaner than a normal flush, you almost never have to clean further.

SPECIAL FINISHES

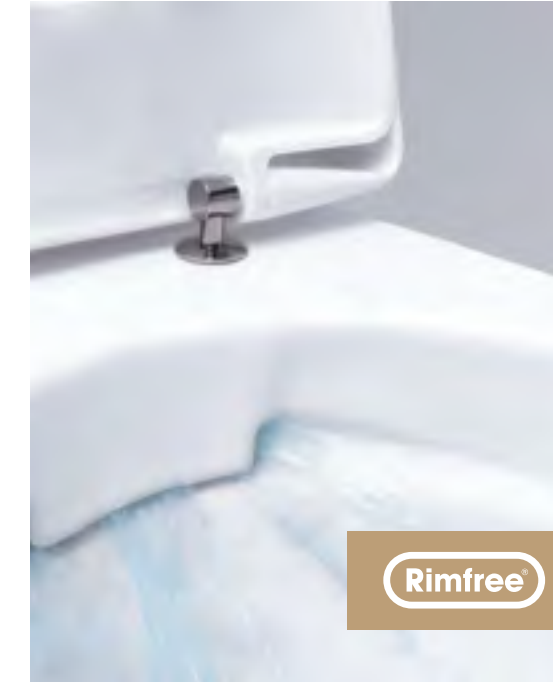

With the addition of a selection of special finishes to an already large range of flush plates, your bathroom can be truly on trend. Choose from a selection of metal finishes such as black chrome, red chrome or brass or add a different texture to the bathroom with a glass, wood, slate or concrete flush plate.

DUOFRESH

It's easy to ensure weeks of freshness in your bathroom when you have an odour extraction unit fitted; simply pull the flush plate aside, insert the odour extraction stick and close the plate. Once there, the stick dissolves slowly and ensures hygiene and cleanliness with every flush throughout the entire toilet, as well as providing a fresh fragrance.

The odour extraction stick is suitable for most Geberit flush plates in the Sigma range and can even be installed at a later date.

RIMFREE®

Keeping the bathroom spotless is a must, because cleanliness and hygiene are so important, especially in the bathroom. Most people want to avoid harsh chemicals and no one wants cleaning to be a hassle. This is why Geberit have introduced the Rimfree® toilet so there are no more hard to reach places. Rimfree® has a completely new and patented flush technology. The flow of water is controlled just before it reaches the ceramic pan – the flush guide sends the water stream along both sides to the exact area where it is needed for a clean and thorough flush.

25 YEARS SPARE PARTS AVAILABILITY

QUALITY GUARANTEED

Geberit concealed cisterns are now classics in modern bathroom installation. The proverbial Geberit quality ensures that you can always count on clean and thorough flushing of your toilets. The one-piece, blow-moulded cistern from Geberit can be easily accessed at any time, simply remove the flush plate for quick and easy maintenance.

PRODUCT CONFIDENCE

Due to extensive product testing Geberit offers for all working parts within Geberit concealed cisterns and flush plates a 25 years spare part availability.

This gives new construction or renovation the safety and security of parts availability for years to come.

THOROUGHLY TESTED

In the endurance testing labs, cisterns, filling valves, shower toilets, flush plates and taps are subjected to computer-controlled lifecycle testing.

150 cisterns are simultaneously evaluated at a rate of at least 200,000 flushes per cistern.

The results of short and long-term testing serve as a guideline for production release and country-specific approvals.
